

To Whom It May Concern

It is my pleasure to write this letter of recommendation for Mr. Khader E. K. Tourq, whom I supervised during his graduation project at the Islamic University of Gaza. As the Head of the Mobile Computing Department, I can confidently state that he ranks within the upper tier of our graduates in terms of academic performance and technical competence.

During my supervision, Mr. Khader demonstrated strong technical skills and a high level of commitment. He successfully led his graduation project, "TRYAQ: An Android Application for the IUG Clinic," conducted in collaboration with the Ministry of Information Technology, achieving an excellent score of 99%. The project reflected his ability to work with modern technologies and manage software systems in a structured and professional manner.

In addition, Mr. Khader possesses commendable personal qualities, including discipline, leadership potential, and a strong capacity for self-learning. He approaches challenges with perseverance and professionalism and maintains respectful and productive relationships with both peers and faculty members.

I am confident that Mr. Khader's academic background and technical abilities will enable him to contribute positively to a Master's program in Computer Engineering. I recommend him for this scholarship with confidence and without reservation.

Sincerely,

Ehab M. Mortaja,

Head of the Department of Mobile
Computing and Smart Device Applications,
Faculty of Information Technology,
Islamic University of Gaza.
